City, Province

[Postal]

Private & Confidential

To: Notary information

Greetings,

I was originally delivered in a hospital in **Province**, my current Province is _____ so it is it is not possible for me right now to physically travel to **Province**.

I require the **Province** Birth Certificate & **Registration/Statement** of a Live Birth to be properly notarized for legal and private international purposes, therefore, upon receivership of these documents included and mentioned above, please:

1. Notarize the Birth Certificate & **Registration/Statement** of a live birth.
2. Date, sign, print and stamp the Notary's name beneath their signature and seal (embossed) the documents.

Thank you very much, we appreciate your assistance,
